

# Direct Install Program

## Receive Energy-Efficient Products to Boost Your Bottom Line

Today's economy is especially challenging for small businesses. Many are aggressively seeking ways to cut expenses and better manage operating costs. At Southern California Edison (SCE), we understand how energy costs can impact your bottom line...that's why we offer the Direct Install program.

The Direct Install program is an excellent way for your business to reduce energy costs and save money. This effortless program offers long-term energy savings to qualifying businesses by providing no- or low-cost energy-efficient products, including installation.

## How Direct Install Works

We have contracted with highly-skilled energy efficiency experts who will come and evaluate your facility, free of charge, to identify energy-saving opportunities.

With your approval, the contractor will replace less efficient equipment with the program's more modern energy-efficient equipment. Your business will use less energy, reduce its carbon footprint, and lower your electricity costs.

Our approved contractor will complete the energy assessment and make recommendations to improve the energy efficiency of your business. If you agree with the recommendations and costs, if any, the contractor will ask you to sign an Authorization Form and schedule an appointment for a convenient time to install the equipment. Installation of recommended energy-efficient equipment is fast and efficient, without any interruption to your business.

It's really that easy. There's no catch. Simply allow us to help your business use energy more efficiently, conserve precious resources, and improve your bottom line.

# Direct Install Program

Save energy and money with energy-efficient products and installation from SCE

## Eligible Replacement Equipment

After your free evaluation, your contractor may recommend one or more of the following low- or no-cost products:

- **LED Lights** — Today's LED lights have great energy savings potential in many applications and have improved product life compared to incandescent lamps.
- **Fluorescent Lighting** — Save on lighting costs every month and help lower your cooling costs!
- **Hi-Bay Lighting** — Save on Hi-Bay lighting electricity costs with equivalent linear fluorescent lights.
- **Refrigeration** — Door closers to improve the energy-efficient operation of your refrigeration equipment.
- **LED Signs (open)** — Save on signage electricity costs by using LED signs.

Remember, the installation of the recommended approved products is included.

## It's Easy to Start Saving Energy and Money

After reviewing your energy evaluation, recommended energy-saving products, and costs, if any, simply sign the Authorization Form. Your approved contractor will work with you to set up a convenient time to have your new, energy-efficient equipment installed.

The SCE-approved contractors for the Direct Install program are:

The Direct Install program is funded by California utility ratepayers and is administered by Southern California Edison under the auspices of the California Public Utilities Commission. The Direct Install program is available to qualified businesses using less than 200 kilowatts (kW) monthly. Installed equipment is warranted by the manufacturer for one year and the contractor warranties their work for one year. Projects are limited to a maximum of \$10,000 per Service Account for accounts with demands of 0-99 kW, and \$15,000 per Service Account for accounts with demands of 100-199 kW. Program effective until funds are exhausted. Program may be modified or terminated without prior notice.
